MARIA SIDOROVA FRONT-END DEVELOPER

ABOUT ME

Junior Front-End Developer with a BSc (Hons) in Computer Science & Mathematics. Skilled in React, Next.js, TypeScript, TailwindCSS, and Redux, with a strong focus on building responsive, accessible, and animated web applications. I bring determination, adaptability, and a problem-solving mindset that defines my approach to development. With a fast learning curve, I pick up new tools and frameworks quickly, stay focused on delivering results, and aim to strengthen a company's technical objectives while progressing into a stronger role over time.

TECHNICAL PROJECTS

<u>Planerly (Kanban Task Manager) – React, Redux Toolkit,</u> Formik, Framer Motion, TailwindCSS

- Built a drag-and-drop task manager with animated modals and form validation.
- Implemented Redux state with localStorage persistence for boards, tasks, and columns.

MoodBowl (Meal & Mood Tracker) - Next.js, MongoDB, TailwindCSS, Motion

- Developing a full-stack diary app with mood tracking, journaling, and meal logging.
- Designed MongoDB schema and API routes for moods, meals, and custom calendar events.

EDUCATION

2020-2024

University of Manchester

BSc (Hons) Computer Science & Mathematics (2.2)

- Joint degree combining computer science and mathematics,
- strengthening logical reasoning and problem-solving.
 Key Favourite modules: Algorithms & Data Structures, Data Science, Natural Language Processing, Coding Theory.
- Final-year project: Built a React Native mobile application for step counting and survey data collection, applying software engineering principles and full-stack development practices.

2018-2020

Wells Cathedral School

A* Mathematics, A* Further Mathematics, A Economics

- Moved to the UK as an international student, adapting to a completely new environment, language, and education system.
 That experience taught me resilience and independence alongside my studies.
- Mathematics and Further Mathematics built up strong logical and analytical foundations.
- Economics helped me understand data, trends, and decisionmaking.

WORK EXPERIENCE

Nov 2024 - Jun 2025

Waiter / Barista / Host - Kimpton Clocktower Hotel

- Contributed to high guest satisfaction by preparing consistently high-quality coffee with attention to detail and presentation.
- Supported colleagues by covering shifts and fostering a positive, collaborative team atmosphere.
- Learned how to work under pressure during peak hours, managing high volumes of orders while keeping service standards high.
- Consistently managed early work hours (5:30am–12pm) with professionalism, showing strong time management and reliability.

Dec 2023 - Aug 2024

Team Manager - Black Sheep Coffee

- Promoted to Team Manager within the first month despite being new to the barista role, showing fast learning and responsibility.
- Managed day-to-day operations: staff scheduling, stock orders, wastage logs, and rollout of new delivery services, while acting as the first point of contact for technical issues and system malfunctions.
- Ensured effective teamwork by supporting colleagues, resolving conflicts, and keeping service smooth during busy hours.
- Took charge during peak periods in a high-traffic central location, maintaining calm under pressure and motivating the team

Jul 2021 - Dec 2023

Barista – Slug and Lettuce, Albert Square

- First hospitality role quickly adapted to a busy environment and became a supportive, reliable team member.
- Developed multitasking skills, from preparing drinks to assisting colleagues during peak demand.
- Balanced university studies with part-time hospitality work, showing strong time management and dedication of both mental and physical energy.
- Worked effectively under pressure during peak hours, often late at night, while maintaining quality service and a positive attitude.
